"For the second quarter of 2018, in spite of a large amount of commercial real estate loan payoffs, our total loans increased \$334.2 million or 10.3% annualized to \$13.3 billion. Also, our net interest margin increased to 3.83% during the second quarter compared to 3.75% in the first quarter of 2018 as our loans repriced more than our deposits," commented Pin Tai, Chief Executive Officer and President of the Company.

SECOND QUARTER INCOME STATEMENT REVIEW

Net income for the quarter ended June 30, 2018, was \$73.7 million, an increase of \$22.3 million, or 43.4%, compared to net income of \$51.4 million for the same quarter a year ago. Diluted earnings per share for the quarter ended June 30, 2018, was \$0.90 compared to \$0.64 for the same quarter a year ago. Second quarter net income included \$1.7 million in acquisition and integration costs related to the FENB acquisition and a \$1.1 million decrease in the fair value of equity securities.

Return on average stockholders' equity was 14.51% and return on average assets was 1.88% for the quarter ended June 30, 2018, compared to a return on average stockholders' equity of 10.96% and a return on average assets of 1.48% for the same quarter a year ago.

Net interest income before provision for credit losses

Net interest income before provision for credit losses increased \$22.6 million, or 19.3%, to \$140.0 million during the second quarter of 2018, compared to \$117.4 million during the same quarter a year ago. The increase was due primarily to an increase in interest income from loans and securities, offset by increases in interest expense from time deposits and long-term debt.

The net interest margin was 3.83% for the second quarter of 2018 compared to 3.63% for the second quarter of 2017 and 3.75% for the first quarter of 2018.

For the second quarter of 2018, the yield on average interest-earning assets was 4.58%, the cost of funds on average interest-bearing liabilities was 1.03%, and the cost of interest-bearing deposits was 0.92%. In comparison, for the second quarter of 2017, the yield on average interest-earning assets was 4.19%, the cost of funds on average interest-bearing liabilities was 0.78%, and the cost of interest-bearing deposits was 0.68%. The increase in the yield on average interest earning assets resulted mainly from higher rates on loans. The net interest spread, defined as the difference between the yield on average interest-earning assets and the cost of funds on average interest-bearing liabilities, was 3.55% for the quarter ended June 30, 2018, compared to 3.41% for the same quarter a year ago.

Reversal for credit losses

There was no reversal for credit losses for the second quarter of 2018 or 2017. The reversal for credit losses was based on a review of the appropriateness of the allowance for loan losses at June 30, 2018. The following table summarizes the charge-offs and recoveries for the periods indicated:

(1) Real estate loans include commercial mortgage loans, residential mortgage loans, and equity lines.

Non-interest income

Non-interest income, which includes revenues from depository service fees, letters of credit commissions, securities gains (losses), wire transfer fees, and other sources of fee income, was \$7.8 million for the second quarter of 2018, an increase of \$1.6 million, or 25.8%, compared to \$6.2 million for the second quarter of 2017, primarily due to a \$2.7 million increase in other operating income and offset by a \$1.1 million loss from the decrease in the fair value of equity securities during the quarter.

Non-interest expense

Non-interest expense increased \$6.4 million, or 11.3%, to \$63.1 million in the second quarter of 2018 compared to \$56.7 million in the same quarter a year ago. The increase in non-interest expense in the second quarter of 2018 was primarily due to a \$4.5 million increase in salaries and employee benefits expense, partly from the acquisition of FENB, a \$1.5 million increase in marketing expense, a \$1.7 million increase in acquisition and integration costs offset by a \$1.5 million decrease in reserve for unfunded commitments, when compared to the same quarter a year ago. The efficiency ratio was 42.7% in the second quarter of 2018 compared to 45.9% for the same quarter a year ago.

Income taxes

The effective tax rate for the second quarter of 2018 was 13.0% compared to 23.1% for the second quarter of 2017. The effective tax rate includes the reduction of the corporate tax rate from the enactment of the Tax Cuts and Jobs Act, an alternative energy investment made in the second quarter and the impact of low income housing tax credits. Income tax expense for 2018 was reduced by \$0.8 million in benefits from the distribution of restricted stock units and exercises of stock options.
